### ***PART 1: Introduction to Indian Spirituality***

Aspects covered: When it comes to Spirituality many words are used and applied, sometimes in their aptness and sometimes due to compulsions of vocabulary. Energy, resonance, circle of life, eternity, bliss..... even “Chakra” or “Yoga” are examples. This part of the course introduces the participants to:

1. The true understanding of terminology used in the spiritual context
2. A methodical approach to understanding the human construct
3. An integrative view of the functioning of human life
4. The continuum of life energy and consciousness
5. The process of death and after death transactions
6. The precision in rebirth - within and beyond the time-space constructs
7. Influences of energy patterns – within and beyond the physical body
8. The possibilities of intervention and conscious action
9. Appreciation of how new sciences reflect ancient wisdom

### ***PART 2: Garbha Vijnana - Ancient Indian Spiritual Womb Science***

“Garbhopanishad” is an ancient text written by the Sage Pippalada and dates back to thousands of years. The exact date of the scripture is unknown but it is established that it is a minimum of 6500 years old! It describes Embryology with precision and is a marvel in terms of its detailing. This knowledge is revealed as it would if an unborn could speak its experiences starting from the period before conception up to the point of being delivered into this world!!!

Part 2 of this course covers:

## BLESSING BEFORE BIRTH

exclusively for PPN Practitioners]

1. The transition in the spirit world and entry into Human-birth-ready realms through consolidation of the framework of Human Birth
2. Choosing the entry point – Womb, Family, Geography, Culture, Destiny, Time and other selection criteria for birth by the birth-ready spirit
3. Formation of the Spiritual Heart which then guides conception
4. Development in the post conception and prenatal period in phases
5. Spiritual psychology on the onset and overcoming of progressive foetal depression and the influence of implicit memory
6. Astro psychology and cosmic influences during prenatal stages
7. Birth and amnesic effect
8. Guidance to parents and educators on the purpose of life that was established by the baby for itself while in the womb
9. Infancy as a continuation of what happens in the Womb

### ***PART 3: Omnio Blessings Before Birth Practices***

Aspects covered: Wisdom is knowledge in application. The techniques of applying spiritual knowledge through simple and effective practices is called “Tantra” in Sanskrit. In this part of the course, Babaji empowers PPN Educators to incorporate OBBB practices in the following areas of their work:

1. Fertility Invocation: For young girls in puberty to sanctify their Womb.
2. Fertility Conservation: For individuals/couples who are using contraceptives to block the event of pregnancy.
3. Almost Born: For individuals/couples who seek guidance in healing out of terminated pregnancies and still births.
4. Soul Invitation: For individuals/couples trying to conceive a child.
5. Towards Birth: For individuals/couples in any stage of pregnancy.
6. Womb to World: For individuals/couples going through child birth.

### ***PART 4: Ask the Mentor***

Spiritual knowledge-based sessions seem to have a stupefying impact on serious learners. This leads to a numbing influence on the ability to come up with questions or related thoughts during the period of an ongoing class. In order to facilitate after-thoughts, related queries and idea sharing, OBBB program has within its fold, an exclusive Q&A / Guidance time with the mentor.
