

**OMNIO FUTURE**  
**EDUCATIONAL PRACTITIONERS TRAINING PROGRAM**  
**For those Serving Parents during Conception, Pregnancy, Childbirth, Infancy and Early Childhood**

**INTRODUCTION**

Omnia Future is a pioneer in the field of prenatal, perinatal, infant and child education. Omnia Future announces an Online Training Program for persons desiring to take up holistic educational practices. The program is designed for those who desire to take up this as a vocation and practice in consonance with ancient science of Indian (Bharateeya) Spirituality, which has been recognized the world over as a source of Universal Wisdom for mankind.

**POWER OF EARLY LIFE**

The period of preconception, pregnancy and infancy form the three foundational stages of human life. The impact of this early period on the subsequent phases of life is indeed profound. The basic formative structure of a human-being made in the early period subsequently manifests in every stage of life – including early childhood, teenage and adulthood. Health, Immunity, Attitudes, Behaviour, Intelligence, Memory and such other are seen later on. Hence the period of preconception, pregnancy and infancy combine to form the **“Golden Period of Life”**. Subsequently, the imprinting of the neural networks in the child is fully formed by the age of about 5 years. The ‘Blooming and Pruning’ phases, as referred to by child psychologists forms the mind operating mechanisms in a child which carries over to later life including teenage and adulthood.

**OMNIO FUTURE PROGRAMS- EMPOWERING PARENTS HOLISTICALLY**

Modern Sciences have made tremendous progress in the last three centuries. The pace of development in science and technology over the last 50 years is unprecedented in the history of mankind. New sciences like Epigenetics, Quantum Physics, Neuro-Cardio-Biology, Signal Transduction, to name a few, have transformed our understanding of life within and outside. In the last four decades, APPPAH (Association for Prenatal and Perinatal Psychology and Health) has brought out these in the pre and perinatal areas. Similarly, organisations like the HeartMath® Institute have pioneered the resurgence of a new and more comprehensive learning of the components of essential life processes. Prenatal and Perinatal sciences have made a remarkable progress in the (re) understanding of the process of conception, pregnancy and childbirth. The knowledge has also revolutionized the fundamental tenets in the manifestation unborn and new born psychology. Educating a child begins in the womb, rather well before the womb!

It is now well known that ancient cultures like India – the land of the Vedas, Upanishads, Yoga and Tantra have always carried this knowledge. Understanding of the holistic nature of energy, life, life-processes, purpose of life and the prescriptions to make life meaningful are replete. Knowledge pertaining to conception, prenatal, perinatal and early periods is also found in abundance. Scriptures including Atharva Veda, Bhagavad

Gita, Garbha Upanishad, Srimad Bhagavatham, Aitareya Upanishad contain copious details of the processes and procedures.

Omnia Future, founded on the basis of spiritual teachings of the Shivanetra lineage, has taken up the task of empowerment of parents in the Golden Period of their progeny. The knowledge and practices are a fine blend of modern sciences and the ancient wisdom. The evidence of the wealth of knowledge is seen in the Omnia Future Programs and Packages. The Omnia Future Educational Practitioners Training program is a unique offering for Educators who wish to truly prepare children for the future and make their own life more fulfilling and purposeful.

## **OMNIO FUTURE - EDUCATIONAL PRACTICE**

### **Developmental Phases relevant to Education**

Omnia Education is offered in the earliest period of life. The course of human development we focus on, is during the formative stages of life in the following phases.

<b>Phase</b>	<b>Description of Formative Stage</b>	<b>Duration</b>	<b>Nature of Learning</b>
Preconception	Before conception, in the formative stage of sperms and egg	A period of not less than 90 days before physical conception	Resonant
Pregnancy	Post conception, after confirmation of pregnancy and the months thereafter	Period of about 40 weeks or 9 months / 280 days	Womb learning
Infancy	After birth, when the child remains in a subconscious state and receives inputs from environment	Period of day of birth to about 2/2.5 years	Subconscious learning
Early Childhood	When the child forms the mind patterns and prunes it to design its own life	Period from end of infancy to about 5/6 years of age	Mind Development

## **OMNIO EDUCATIONAL PRACTITIONERS TRAINING PROGRAM**

Omnia Future Educational Practitioners are torchbearers who engage with Parents. They take the parents through a unique journey which enables a unique energy manifestation process to empower a child in the womb of the mother or thereafter in the womb of 'Mother Nature' in the course of infancy. They enhance learning potential and help in prevention/mitigation of Learning Difficulties, Disabilities and Disorders through early childhood and help a child to nurture its own potential.
