

# OMNIO FUTURE ACADEMY'S ONLINE GURUKULAM &

## **Introduction to Omnio Learning:**

### ***Built on the Foundations of Indic Education Framework***

Education is the facilitation of learning. Teaching can be prepared and executed. But Learning is an occurrence – one that has its seat in the heart and its formation in the subconscious itself. The expressions of these happen in the intellectual, mental, emotional and physical faculties.

The Gurukulam System of education is the most scientific method of empowering a child, to live life to the fullest, contribute to the world and enhance their self potential. The Gurukulam system is able to achieve this because of its powerful heart based subconscious learning facilitation!!

As the World is evolving, parents and educators are revisiting the purpose and processes of education. Gurukulam System comes in with the ultimate solutions for the situations we face.

***Omnio Learning Curriculum combines the power of Quantum Learning and Gurukulam Education.***

Quantum Learning points to the possibility, that potential to learn, which lies in each of us. The maximum potential that we can reach is a good thing to aim for. At the end of the day, that's exactly what we want for our children. When that happens then we reach a good place. We seem to have a natural feeling to go towards that perfection. Awakening the possibility of maximum absorption within us is called Quantum Learning.

The younger the learner, the more impressionable he or she is. That is why during the nine months of pregnancy the child can learn from the mother's mind while still inside the womb. Quantum Learning starts here and continues all through Infancy, Early Childhood up to Adulthood.

Courses offered by Omnio Future Academy are built on the Foundation of Omnio Learning Curriculum.
