

# OMNIO FUTURE ACADEMY'S TEMPLE OF EXCELLENCE

## **Introduction to Omnio Learning:**

### ***Built on the Foundations of Indic Education Framework***

Education is the facilitation of learning. Teaching can be prepared and executed. But Learning is an occurrence – one that has its seat in the heart and its formation in the subconscious itself. The expressions of these happen in the intellectual, mental, emotional and physical faculties.

The Gurukulam System of education is the most scientific method of empowering a child, to live life to the fullest, contribute to the world and enhance their self potential. The Gurukulam system is able to achieve this because of its powerful heart based subconscious learning facilitation!!

As the World is evolving, parents and educators are revisiting the purpose and processes of education. Gurukulam System comes in with the ultimate solutions for the situations we face.

***Omnio Learning Curriculum combines the power of Quantum Learning and Gurukulam Education.***

Quantum Learning points to the possibility, that potential to learn, which lies in each of us. The maximum potential that we can reach is a good thing to aim for. At the end of the day, that's exactly what we want for our children. When that happens then we reach a good place. We seem to have a natural feeling to go towards that perfection. Awakening the possibility of maximum absorption within us is called Quantum Learning.

The younger the learner, the more impressionable he or she is. That is why during the nine months of pregnancy the child can learn from the mother's mind while still inside the womb. Quantum Learning starts here and continues all through Infancy, Early Childhood up to Adulthood.

Courses offered by Omnio Future Academy are built on the Foundation of Omnio Learning Curriculum.

## **ADMISSIONS & FEE STRUCTURE OF TEMPLE OF EXCELLENCE**

Temple of Excellence (TOE) is a physical center from Omnio Future where Omnio Learning Curriculum is directly delivered by trained mentors from Omnio Future.

TOE is not a school as we focus on life education beyond academics and on extracurricular activities.

Our endeavour is to make the whole programme truly purposeful and empowering for all. To this end, the parents must recognise that they are the prime participants in the programme.

We wish to highlight the following:

1. Parents enrol for this program and hence they should attend all the empowerment sessions mandatorily.
2. A child can avail the facilities available at the centre during the day (10 am to 6 pm) – the timings of that may vary and shall be indicated time-to-time.
3. The Centre runs for all 12 months. However, there will be a few weeks of closure interspersed in the course of the year. These will be indicated in advance to all.

Please see the table below. You will notice that the wide spectrum curriculum includes the entire family and empowers all constituents therein.
